Basic Information

- Place of Origin: China
- Brand Name: Bythai
- Model Number: BT03

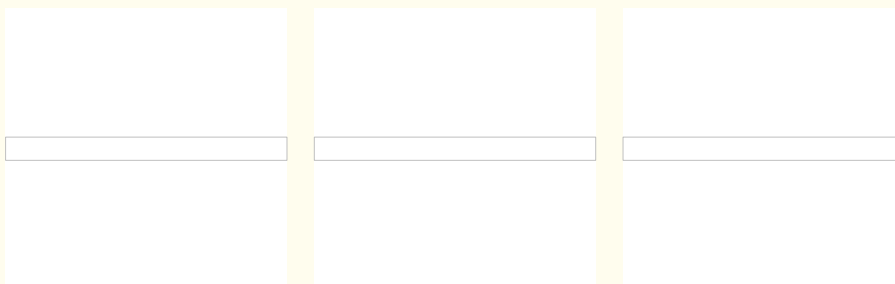

Product Specification

- Size: 48.3mm
- Weight: $\leq 30\text{kg/m}^2$
- Surface Treatment: Hot-dip Galvanized
- Vertical Load Capacity: $\geq 45\text{KN}$
- Warranty: 2 Years
- Safety Factor: ≥ 4
- Standard: EN12810 & EN12811
- Joints: Double-locking

Product Description:

The Ringlock system scaffolding is an extremely versatile and secure scaffolding solution, offering excellent strength and stability. It is made of Q235 steel and is extremely durable and reliable, providing a two-year warranty for added peace of mind. This scaffolding system is also designed to meet the EN12810 & EN12811 safety standards, ensuring a safety factor of ≥ 4 .

The Ringlock system scaffolding is composed of a variety of components, including vertical, horizontal, diagonal, brace, base plate, ladder, and more. It is ideal for any type of construction project, providing a reliable and robust scaffolding product for all types of applications. With its innovative Ringlock connection technology, it ensures that the scaffolding is strong and secure, allowing for quick and easy installation.

The Ringlock system scaffolding is an excellent choice for both residential and commercial projects, providing a reliable, secure, and cost-effective solution. Its superior design and construction provide an exceptional level of safety and stability, making it the perfect choice for any scaffolding project.

Technical Parameters:

Parameters	Details
Joints	Double-locking
Components	Vertical, Horizontal, Diagonal, Brace, Base Plate, Ladder, Etc.
Standard	EN12810 & EN12811
Horizontal Load Capacity	$\geq 15\text{KN}$
Weight	$\leq 30\text{kg/m}^2$
Surface Treatment	Hot-dip Galvanized
Size	48.3mm
Safety Factor	≥ 4
Warranty	2 Years
Vertical Load Capacity	$\geq 45\text{KN}$

Applications:

Ringlock System Scaffolding – Bythai BT03

The Bythai BT03 Ringlock System Scaffolding is designed for vertical and horizontal load support, providing reliable stability and safety for construction sites. It is made in China and is composed of ringlock ledgers, accessories, verticals, horizontals, diagonals, braces, base plates, ladders and other components. This Ringlock System Scaffolding is galvanized with hot-dip galvanizing, providing superior corrosion protection and a long-lasting finish. It also has a vertical load capacity of $\geq 45\text{KN}$ and horizontal adjustment of $\leq \pm 3^\circ$. This Ringlock System Scaffolding has a size of 48.3mm and is easy to install and dismantle. It is perfect for use in various construction projects, offering a stable and reliable solution.

Customization:

Customized Service for Ringlock System Scaffolding offered by Bythai

Bythai's Ringlock System Scaffolding is a perfect system with high quality which is used to create a safe working environment. This product is made of Ringlock Standard with model number BT03, size 48.3mm. It is manufactured in China and comes with a 2-Year warranty. It is certified with EN12810 & EN12811 and the maximum height is $\leq 30\text{m}$ with horizontal adjustment $\leq \pm 3^\circ$.

The product comes with a wide range of accessories for different applications. The accessories include Ledgers, Standards, Braces, Base Jacks and more. It is easy to install and maintain.

Bythai's Ringlock System Scaffolding is a great choice for any job, whether it is for construction, repair, renovation or maintenance. It is a safe and cost-effective solution for scaffolding needs.

Packing and Shipping:

Packaging and Shipping

The Ringlock System Scaffolding is securely packaged and shipped to customers in order to ensure its safe arrival. The packaging for the scaffolding consists of a wooden crate or cardboard box, sealed with bubble wrap or other protective material. The package must be clearly labeled with the customer's name, address, and a list of the contents.

The scaffolding is then loaded onto a truck or container for shipping. All shipments are tracked and monitored to ensure that the product is delivered safely and on time.

FAQ:

Q: What is Ringlock System Scaffolding?

A: Ringlock System Scaffolding is a modular scaffolding system, which is widely used for construction, renovation, building, and other applications.

Q: What is the Brand Name and Model Number of Ringlock System Scaffolding?

A: The Brand Name is Bythai and the Model Number is BT03.

Q: Where is Ringlock System Scaffolding manufactured?

A: Ringlock System Scaffolding is manufactured in China.

Q: What are the features of Ringlock System Scaffolding?

A: The features of Ringlock System Scaffolding include safety, durability, stability, and easy assembly.

Q: What are the benefits of using Ringlock System Scaffolding?

A: The benefits of using Ringlock System Scaffolding include improved productivity, reduced labor costs, increased safety, and improved quality of construction.
