

## High Quality 245N/Mm2 Galvanised Scaffolding Tube - Galvanised Steel

Our Product Introduction

for more products please visit us on [bythaiscaff.com](http://bythaiscaff.com)

### Basic Information

- Place of Origin: China
- Brand Name: Bythai Scaffolding
- Certification: SGS
- Model Number: BT01
- Price: \$5-\$18
- Packaging Details: In bundles
- Delivery Time: 7-15 days
- Payment Terms: TT/LC
- Supply Ability: 1000tons per month

### Product Specification

- Material: Galvanised Steel
- Name: Galvanised Scaffold Tube
- Standard: EN39
- Corrosion Resistance: Excellent
- Bending Radius: >2.5D
- Surface Treatment: Galvanised
- Diameter: 48.3mm
- Length: 6m
- Highlight: **245N/Mm2 Galvanised Scaffolding Tube,  
Galvanised Steel Scaffolding Tube,  
Hot Dipped Galvanized Scaffold Pipes**

### Product Description:

Galvanised Scaffold Tube

Our **Galvanised Scaffold Tube** is a strong and reliable metal scaffolding tube made of **galvanised steel** with a thickness of 3.2mm, and weighs 6.4kg/m. It is mainly used for scaffolding and building construction. This **galvanised metal scaffolding tube** provides a multitude of benefits such as high corrosion-resistance, high strength, and excellent weldability. This **galvanised steel scaffold tube** is also highly durable and perfect for any type of scaffolding project.

### Features:

Product Name: Galvanised Scaffold Tube

Application: Scaffolding

Thickness: 3.2mm

Length: 6m

Bending Radius: >2.5D

Material: Galvanised Steel

Galvanised Steel Scaffolding Tube

Galvanised Steel Tube

### Technical Parameters:

Name	Parameter
Standard	EN39
Elongation	>20%
Surface Treatment	Galvanised
Material	Galvanised Steel
Bending Radius	>2.5D
Corrosion Resistance	Excellent
Length	6m
Diameter	48.3mm
Thickness	3.2mm

### Applications:

Bythai Scaffolding BT01 Galvanised Scaffold Tube is a high-quality galvanised metal scaffolding tube made from galvanised steel and certified with SGS certification. It is made in China and complies with EN39 standard.

This Galvanised Metal Scaffolding Tube is perfect for any scaffolding project, and its 6.4kg/m weight makes it easy to handle and transport. The price ranges from \$5 to \$18 and it can be packaged in bundles and delivered within 7 to 15 days.

This high-quality Galvanised Scaffolding Tube is supplied in 1000tons per month and it can be paid for through TT/LC.

If you are looking for a reliable Galvanised Metal Scaffold Tube with a SGS certified and China-origin, then Bythai Scaffolding BT01 is your best choice.

### Support and Services:

Technical Support and Service for Galvanised Scaffold Tube

We provide technical support and services for Galvanised Scaffold Tube. Our experienced team of experts are available to answer any of your questions or concerns about this product.

We offer a variety of services to ensure the best possible experience with your Galvanised Scaffold Tube, including:

Installation and maintenance support

Product troubleshooting

Product warranty information

Replacement parts and accessories

Customer support

Product instruction and tutorials

For more information about our technical support and services for Galvanised Scaffold Tube, please don't hesitate to contact us.

## Packing and Shipping:

Galvanised scaffold tube is typically packaged in bundles or in coils and strapped securely to prevent movement during shipping. Each bundle is then wrapped in plastic sheeting to protect it from water and dirt. The bundles and coils are then loaded onto a truck for delivery to the customer. For international shipments, the bundles and coils are placed into cargo containers and loaded onto a ship.
