Basic Information

- Place of Origin: china tianjin
- Brand Name: scaffolding steel prop
- Minimum Order Quantity: 1000
- Price: 4.5-8.5
- Delivery Time: 10-25

Product Specification

- Weight: Heavy
- Size: Standard
- Packaging: Container
- Function: Support
- Surface Treatment: HDG
- Material: Steel
- Height: Adjustable
- Feature: Durable
- Highlight: **Steel Props For Construction Projects, HDG Adjustable Construction Props, Adjustable Steel Props For Construction**

Heavy Construction Steel Props For Construction Projects Buildings And Heavy Construction

Product Description:

Adjustable Steel Prop is a perfect tool for constructing, concreting and other support purposes. It is made of high-quality steel and treated with HDG (hot-dip galvanizing) surface for improved corrosion resistance and durability. Standard size, adjustable height, and convenient packing in containers make it ideal for construction sites.

The steel prop is designed to provide tripod support for concrete structure and other construction works. It is adjustable in height, easy to use and can be used in various construction projects. It also features a safe and secure locking system for improved protection.

Adjustable Steel Prop is the perfect choice for construction sites. It is highly durable, reliable and ideal for all types of support works. It is lightweight, easy to install and can be used in different types of projects. It offers the best support for concreting, shoring and other construction activities.

Choose Adjustable Steel Prop for your construction projects and enjoy its superior performance and long-lasting durability. It is the perfect tool for all types of support works and will ensure optimal safety and reliability.
