Basic Information

- Place of Origin: china tianjin
- Brand Name: scaffolding coupler
- Model Number: BM201
- Minimum Order Quantity: 1000
- Price: 4.5
- Delivery Time: 15-25

Product Specification

- Color: Silver
- Surface Treatment: Galvanized
- MOQ: 1000
- Material: Steel
- Standard: EN74-1
- Application: Construction
- Feature: High Strength
- Package: Container
- Highlight: **Steel Silver Scaffolding Coupler, Scaffold System Scaffolding Coupler, EN74-1 Scaffold Swivel Coupler**

Product Description:

Scaffolding Coupler - Japanese-style Scaffold Connectors

The Scaffolding Coupler is an essential product for construction projects. It is commonly used in the construction industry to connect different scaffold components, providing stability and safety on job sites.

The Japanese-style Scaffold Connectors, also known as Scaffold clamps or Rotating clamp scaffold, are designed for easy installation and disassembly, making them a popular choice among construction workers.

Product Attributes:

MOQ: [1000 pieces](#)

Color: [Silver](#)

Package: [Container](#)

Surface Treatment: [Galvanized](#)

Application: [Construction](#)

The Scaffolding Coupler is available in a striking silver color, making it easily visible on the job site. It is made from high-quality materials and has been galvanized for enhanced durability and corrosion resistance.

With a minimum order quantity of 1000 pieces, the Scaffolding Coupler is suitable for large scale construction projects. The product is packaged in containers, ensuring easy transportation and storage.

The Japanese-style Scaffold Connectors are specifically designed for use in construction, providing a strong and stable connection between scaffold components. They are suitable for various types of scaffolding, including Rotating clamp scaffold, and can withstand heavy loads and harsh weather conditions.

Investing in the Scaffolding Coupler will not only ensure the safety of your workers but also increase efficiency and productivity on the job site. Its easy installation and disassembly features save time and effort, making it a valuable addition to any construction project.

Choose the Scaffolding Coupler for a reliable, sturdy and efficient scaffold connection solution for your construction needs.

Technical Parameters:

Attribute	Value
Application	Construction
Color	Silver
Feature	High Strength
Surface Treatment	Galvanized
Standard	EN74-1
Package	Container
Material	Steel
MOQ	1000
Name	Scaffolding Coupler
Keywords: JIS Standard Couplings, Scaffold clamp, Fixed fasteners, Joint connector	

Applications:

Scaffolding Coupler

Scaffolding Coupler, also known as coupler scaffolding, is an essential scaffolding accessory used in the construction industry. It is a strong and durable connector that joins two steel pipes together to form a stable structure. The coupler is designed to withstand heavy loads and provide maximum support for workers and construction materials.

This specific coupler is the BM201 model, manufactured in China, Tianjin. It meets the JIS Standard for couplings and is made of high-quality Japanese steel, ensuring its strength and reliability. The product is in high demand and has a minimum order quantity of 1000 units.

One of the key features of the Scaffolding Coupler is its high strength. It can withstand heavy loads and provide stability and safety in construction sites. The coupler is also designed to meet the EN74-1 standard, ensuring its quality and safety for use.

The Scaffolding Coupler is packaged in containers for easy transportation and storage. Its silver color gives it a professional and sleek

look, making it a popular choice for scaffolding accessories in the construction industry.

The price of the Scaffolding Coupler is \$4.5 per unit, making it an affordable yet high-quality option for construction companies. The delivery time for the product is 15-25 days, providing a timely and efficient solution for construction projects.

The Scaffolding Coupler is an essential component in scaffolding systems, providing a strong and stable connection between steel pipes. Its use is not limited to construction sites, as it can also be used in industrial settings, event structures, and other temporary structures. Investing in the Scaffolding Coupler is a smart choice for construction companies, as it ensures safety, stability, and efficiency in various construction projects. Its high strength, JIS Standard compliance, and affordable price make it a top choice for scaffolding accessories in the market.

Upgrade your scaffolding system with the Scaffolding Coupler and experience the difference in strength and stability. Contact us now to place your order and improve your construction projects!

Customization Service for Scaffolding Coupler

Brand Name: Scaffolding Coupler

Model Number: BM201

Place of Origin: China, Tianjin

Minimum Order Quantity: 1000

Price: \$4.5

Delivery Time: 15-25 days

Our Scaffolding Coupler is a fixed fastener designed specifically for the construction industry. Made of high-quality steel, our coupler is a durable and reliable solution for manual scaffold connection needs. It is perfect for connecting steel pipes and is suitable for a wide range of applications in construction projects.

Name: Scaffolding Coupler

Our Scaffolding Coupler, model number BM201, is a must-have tool for any construction project. It is designed to provide a strong and secure connection between steel pipes, ensuring the safety and stability of the scaffolding structure.

Standard: EN74-1

Our Scaffolding Coupler is manufactured according to the EN74-1 standard, which guarantees its quality and reliability. This international standard ensures that our product meets all necessary safety and performance requirements, giving you peace of mind while using it.

Surface Treatment: Galvanized

To enhance the durability and longevity of our coupler, we have applied a galvanized surface treatment. This coating protects the steel from corrosion and rust, making it suitable for use in various weather conditions.

Color: Silver

Our Scaffolding Coupler is silver in color, giving it a sleek and professional appearance. This makes it easy to identify and adds to the overall aesthetic of your scaffolding structure.

Application: Construction

Our Scaffolding Coupler is specifically designed for use in construction projects. It is a versatile and essential tool for connecting steel pipes, making it suitable for various applications such as building, maintenance, and repair work.

With a minimum order quantity of 1000, our Scaffolding Coupler is available at a competitive price of \$4.5. We understand the importance of timely delivery in construction projects, which is why we ensure a delivery time of 15-25 days.

Choose our Scaffolding Coupler for a reliable and efficient solution for your construction needs. Contact us today to place your order or for more information on our customization services.

Packing and Shipping: Packaging and Shipping for Scaffolding Coupler

Our Scaffolding Coupler is carefully packaged to ensure safe delivery and protection during transportation. Each coupler is individually wrapped with a layer of bubble wrap and placed in a sturdy cardboard box. The box is then sealed with tape to prevent any damage or loss during transit.

In order to further protect the product, the boxes are stacked and secured on a wooden pallet for easy handling and storage. The pallet is then shrink-wrapped to provide additional stability and protection during shipping.

We offer various shipping options to meet the needs of our customers. For smaller orders, we use reliable courier services such as DHL, FedEx or UPS. For larger orders, we work with trusted freight companies to ensure timely and efficient delivery.

Our Scaffolding Couplers are shipped from our warehouse in [insert location] and we offer worldwide shipping to our customers. Shipping costs may vary depending on the destination and order quantity.

Once your order is shipped, we will provide you with a tracking number so you can easily track the status of your delivery. We strive to deliver our products in a timely manner and ensure that they reach you in perfect condition.

For any further questions or concerns about our packaging and shipping process, please do not hesitate to contact us. We are committed to providing our customers with the best service possible and look forward to fulfilling your scaffolding needs.
