

## Customized Length Scaffolding Plank for Construction Materials

Our Product Introduction

for more products please visit us on [bythaiscaff.com](http://bythaiscaff.com)

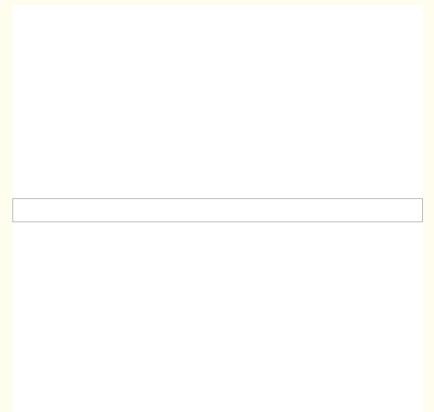

### Basic Information

- Place of Origin: China
- Brand Name: Bythai
- Model Number: BM205
- Minimum Order Quantity: 1000
- Price: 4.5-8.5
- Packaging Details: In bundles
- Delivery Time: 10-15
- Payment Terms: container, shipping

### Product Specification

- Length: Customized
- Material: Steel
- Usage: Scaffolding
- Packaging: Container
- Place Of Shipment: China
- Surface: Pre-galvanized/hot Dip Galvanized/Spray Plastic

### Product Description:

Scaffolding Plank - High Quality Steel Planks for Construction

Product Overview

Scaffolding Plank is a type of steel plank used in construction projects. Made in China, this product is designed to provide a safe and sturdy platform for workers to stand on while working at heights. It is made from high quality galvanized steel, ensuring durability and strength.

Product Attributes

**Place of Shipment:** China

**Material:** Steel

**Length:** Customized

**Surface:** Pre-galvanized/hot dip galvanized/spray plastic

**Packaging:** Container

Key Features

Made from high quality galvanized steel for durability and strength

Available in customized lengths to meet specific construction needs

Pre-galvanized or hot dip galvanized surface for corrosion resistance

Can also be coated with spray plastic for added protection

Designed to provide a safe and sturdy platform for workers

Available Sizes

Our scaffolding planks come in three different sizes to fit various construction needs:

**Steel Plank 230mm:** Suitable for smaller construction projects

**Steel Plank 240mm:** Ideal for medium-sized construction projects

**Steel Plank 250mm:** Perfect for larger construction projects

Custom sizes are also available upon request.

Quality Assurance

Our scaffolding planks are manufactured with strict quality control measures to ensure high quality and safety standards. They are also tested for load capacity and durability to withstand heavy construction usage.

Ordering and Delivery

To place an order for our scaffolding planks, please contact us with your specific requirements. We offer fast and reliable delivery services to ensure your project stays on schedule.

Invest in High Quality Scaffolding Planks for Your Construction Projects

With our galvanized steel scaffolding planks, you can ensure a safe and efficient working environment for your construction workers.

Made in China with top-notch materials and manufacturing processes, our scaffolding planks are the perfect choice for your construction needs.

Surface	Pre-galvanized/hot Dip Galvanized/Spray Plastic
Packaging	Container
Length	Customized
Place of Shipment	China
Usage	Scaffolding
Material	Steel
Special Features	Steel plank with hooks, steel plank ringlock scaffolding

### Applications:

Scaffolding Plank - Bythai BM205

Introduction

Bythai BM205 is a high-quality and durable scaffolding plank, made from galvanized steel, designed for use in various construction projects. It is an essential component of the steel frame for decking plank, which is a crucial part of the steel plank ringlock scaffolding system. This product is manufactured in China and meets all the necessary quality standards, making it a reliable choice for any construction project.

Application

Bythai BM205 scaffolding plank is suitable for a wide range of applications, including building construction, renovation, maintenance, and repair projects. It is commonly used in the construction of high-rise buildings, bridges, and other structures that require temporary support and access. This product is also ideal for use in industrial projects, such as oil and gas refineries, power plants, and shipyards.

Features

Brand Name: Bythai  
Model Number: BM205  
Place of Origin: China  
Minimum Order Quantity: 1000  
Price: 4.5-8.5 USD per piece  
Packaging Details: In bundles  
Delivery Time: 10-15 days  
Payment Terms: Container, shipping  
Packaging: Container  
Length: Customized  
Usage: Scaffolding  
Place of Shipment: China  
Material: Galvanized steel  
Benefits

Durable: Made from high-quality galvanized steel, Bythai BM205 scaffolding plank is strong and can withstand heavy loads, making it suitable for various construction projects.

Easy to Install: The steel plank ringlock scaffolding system is easy to assemble and disassemble, and Bythai BM205 scaffolding plank can be quickly installed with minimal effort.

Customizable Length: The length of the scaffolding plank can be customized according to the specific requirements of each project, providing flexibility and convenience.

Cost-effective: Bythai BM205 scaffolding plank is competitively priced, making it a cost-effective solution for construction companies.

Safe: With its sturdy design and secure installation, this product provides a safe working platform for workers at height, reducing the risk of accidents and injuries.

Corrosion-resistant: The galvanized steel material used in the manufacturing of this product makes it resistant to corrosion, ensuring its longevity and durability.

#### Usage

Bythai BM205 scaffolding plank is an essential component of the steel plank ringlock scaffolding system. It is used to create a working platform for workers at height, providing easy access to various areas of the construction site. Its strong and sturdy design makes it suitable for supporting construction materials, equipment, and workers, ensuring a safe and efficient working environment.

#### Packaging and Delivery

Bythai BM205 scaffolding plank is packaged in bundles and shipped in containers. The minimum order quantity is 1000 pieces, and the delivery time is 10-15 days. Payment can be made through container or shipping.

#### Conclusion

Bythai BM205 scaffolding plank is a top-quality product that offers numerous benefits for construction projects. It is a cost-effective, durable, and safe solution, making it a popular choice for construction companies. With its customizable length and easy installation, it is an essential component of the steel plank ringlock scaffolding system, providing a strong and secure working platform for workers at height. Trust Bythai BM205 for all your scaffolding needs.

## Packing and Shipping:

### Scaffolding Plank

#### Packaging and Shipping

Our scaffolding planks are carefully packaged to ensure that they arrive at your job site in perfect condition. Each plank is individually wrapped in plastic to protect it from moisture and damage during transportation. They are then placed in a sturdy wooden crate for added protection.

We offer both standard and customized packaging options to meet the specific needs of our customers. Our standard packaging includes

bundles of planks tied together with steel bands and stacked on wooden pallets for easy loading and unloading. For customized packaging, we can accommodate any special requests or requirements. Our planks are typically shipped via truck or rail, depending on the size of the order and the location of the customer. We work with reliable and experienced transportation companies to ensure timely delivery and safe handling of our products. Upon arrival, our planks are ready to be unloaded and put to use on your job site. We take great care in our packaging and shipping process to provide you with the highest quality scaffolding planks without any damage or delays.
