Basic Information

- Place of Origin: China
- Brand Name: Bythai
- Model Number: BM205
- Minimum Order Quantity: 1000
- Price: 4.5-8.5
- Packaging Details: In bundles
- Delivery Time: 10-15
- Payment Terms: container, shipping

Product Specification

- Place Of Shipment: China
- Surface: Pre-galvanized/hot Dip Galvanized/Spray Plastic
- Usage: Scaffolding
- Material: Steel
- Packaging: Container
- Length: Customized

Product Description:

Scaffolding Plank

Scaffolding plank, also known as scaffold walk board or scaffold decking, is an essential component in the construction industry. It is used as a platform for workers to stand on while working at heights. The main purpose of scaffolding plank is to provide a safe and stable surface for workers to perform their tasks. Our scaffolding plank is made of high-quality steel and is designed to meet the rigorous demands of construction sites.

Usage

Our scaffolding plank is specifically designed for use in scaffolding systems. It is suitable for a wide range of construction and maintenance tasks, such as painting, plastering, bricklaying, and more. With its sturdy and reliable design, our scaffolding plank ensures the safety of workers while working at heights.

Place of Shipment

Our scaffolding plank is manufactured and shipped from China. China is known for its advanced steel production technology and high-quality products. This ensures that our scaffolding plank meets international standards and is of the highest quality.

Packaging

Our scaffolding plank is packaged in containers, making it easy to transport and store. The container packaging also protects the planks from damage during shipment, ensuring that they arrive at the construction site in perfect condition.

Length

We understand that every construction project is different, which is why we offer customized length options for our scaffolding plank. This allows you to choose the length that best fits your specific project needs, making it more efficient and cost-effective.

Surface

Our scaffolding plank is available in three surface options – pre-galvanized, hot dip galvanized, and spray plastic. The pre-galvanized surface provides a thin layer of zinc coating to prevent rust and corrosion. The hot dip galvanized surface offers a thicker layer of zinc coating for enhanced protection. The spray plastic surface provides a durable and anti-slip finish for increased safety and longevity.

Key Words

Scaffolding steel walking planks hook

Perforated steel plank for sale

Steel plank ringlock scaffold

Scaffold plank boards

Scaffold plank prices

Our scaffolding plank features a hook design, making it easy to attach and remove from the scaffolding system. The perforated steel plank is available for sale at competitive prices, making it a cost-effective option for your construction projects. It is compatible with the ringlock scaffold system, providing a secure and stable platform for workers. Our scaffold plank boards are made of high-quality steel for durability and strength. And finally, our scaffold plank prices are competitive, making our product an affordable option for your construction needs.

In conclusion, our scaffolding plank is a reliable, customizable, and cost-effective option for your scaffolding needs. With its high-quality material, sturdy design, and three surface options, it is the perfect choice for any construction project. Contact us today for more information or to place an order.

Applications:

Scaffolding Plank - The Perfect Solution for Construction

The Bythai Scaffolding Plank, model number BM205, is the ideal product for any construction site. Made in China with high-quality steel, this plank is designed to provide a safe and sturdy platform for workers to stand on while working at heights. With a minimum order quantity of 1000, this product is perfect for large construction projects.

Easy to Use and Durable

Our scaffolding steel plank is designed with hooks on both ends, making it easy to connect to the scaffolding frames. This feature ensures that the plank stays securely in place, providing a stable and safe working surface for workers. The steel catwalk scaffold is also pre-galvanized/hot dip galvanized/spray plastic, making it resistant to rust and corrosion, ensuring its durability for long-term use.

Flexible and Cost-Effective

The Bythai Scaffolding Plank is available at a competitive price range of 4.5-8.5, making it a cost-effective solution for construction companies. It can be easily assembled and disassembled, making it suitable for a variety of scaffolding needs. Whether it is for building

maintenance, renovation, or construction, this steel scaffolding plank can be used for all types of scaffolding applications.

Convenient Packaging and Timely Delivery

Our scaffolding plank is packaged in bundles, making it easy to transport and store. It can also be packaged in containers for large orders, ensuring convenient handling and delivery. With a delivery time of 10-15 days, Bythai guarantees timely and efficient delivery of the product to your construction site.

Safe and Reliable

All Bythai products undergo strict quality control measures to ensure that they meet international safety standards. Our scaffolding plank is no exception, and it is designed to provide a safe and reliable working platform for workers at height. With its sturdy steel construction and non-slip surface, the risk of accidents and injuries is greatly reduced.

Make Bythai Scaffolding Plank Your First Choice

If you are looking for a high-quality, durable, and cost-effective scaffolding plank, then Bythai is the brand for you. Our product offers the perfect solution for working at heights, providing a stable and secure platform for workers. With our quick delivery and convenient packaging, you can rely on us to meet your construction needs. Choose Bythai Scaffolding Plank and make your construction projects safer and more efficient.

Customization:

Surface: Pre-galvanized/hot Dip Galvanized/Spray Plastic

Customized Services:

Customized length according to customer's requirements

Customized packaging with logo and label

Customized surface treatment options including pre-galvanized, hot dip galvanized, and spray plastic

Customized packaging with container options for easy transportation

Customized branding and model number for easy identification

Product Features:

High quality steel material for durability and strength

Suitable for scaffolding and construction purposes

Available in various lengths to meet different project needs

Compatible with ringlock scaffolding system for easy assembly and disassembly

Standard size of 230mm for easy installation and stability

Packing and Shipping:

Scaffolding Plank Packaging and Shipping

Our Scaffolding Planks are carefully packaged and shipped to ensure their safe arrival at your job site.

Packaging

Each plank is wrapped in a protective layer to prevent any damage during transportation. They are then securely packed into bundles, with each bundle containing a specific number of planks depending on the length and weight of the planks.

The bundles are then placed onto pallets and shrink-wrapped to provide additional protection during shipping. Our packaging process ensures that the planks are kept in perfect condition and are ready for use upon arrival.

Shipping

We offer various shipping options to accommodate your specific needs. Our planks can be shipped by truck, train, or ship, depending on the distance and urgency of your order.

For local and regional deliveries, we use our own fleet of trucks to ensure timely and safe delivery. For longer distances, we partner with reliable shipping companies to ensure that your order arrives on time and in perfect condition.

Our team carefully monitors the shipping process to ensure that your planks are delivered to the correct address and in the expected time frame. We also provide tracking information so that you can keep track of your order's progress.

With our careful packaging and efficient shipping methods, you can trust that your Scaffolding Planks will arrive safely and ready for use at your job site.
