- Length: Customized
- Surface: Pre-galvanized/hot Dip Galvanized/Spray Plastic
- Highlight: **Construction Steel Scaffolding Plank,
Customized Galvanized Steel Scaffolding Plank,
Steel Extendable Scaffold Plank**

Product Description

Product Description:

Scaffolding Plank - Product Overview

Scaffolding plank is an essential component for scaffolding systems, providing a safe and sturdy platform for workers to stand on while working at height. Our scaffolding planks are made from high quality steel material and are designed to meet the specific needs of construction and industrial projects.

Place of Shipment

Our scaffolding planks are manufactured in China and can be shipped to any destination around the world. With our extensive shipping network, we ensure timely delivery of our products to our customers.

Usage

Our scaffolding planks are specifically designed for use in scaffolding systems. They are widely used in construction, maintenance, and industrial projects where workers need to work at height. With our high quality and reliable scaffolding planks, workers can safely and efficiently complete their tasks.

Packaging

Our scaffolding planks are packaged in containers to ensure safe transportation and storage. We understand the importance of protecting our products during shipment and our containers are designed to withstand the rigors of transport.

Material

Our scaffolding planks are made from high quality steel material, ensuring strength, durability, and stability. This makes them suitable for heavy-duty use in various construction and industrial projects. We only use top-grade steel to ensure the safety and reliability of our scaffolding planks.

Surface

Our scaffolding planks are available in three surface options - pre-galvanized, hot dip galvanized, and spray plastic. Pre-galvanized planks are coated with a layer of zinc to prevent rust and corrosion, making them suitable for use in outdoor environments. Hot dip galvanized planks provide even better protection against rust and can withstand harsh weather conditions. Spray plastic coated planks offer additional protection against rust and also provide a non-slip surface for workers.

Key Features

Made from high quality galvanized steel

Complies with BS1139 standards

Designed for use in scaffolding systems

Available in different surface options

Strong, durable, and stable

Easy to install and dismantle

Suitable for heavy-duty use

Provides a safe and sturdy platform for workers

In conclusion, our scaffolding planks are the perfect choice for any construction or industrial project. With our high quality materials, advanced manufacturing techniques, and strict quality control, we ensure that our products meet the highest standards of safety and durability. Trust our galvanized steel planks, BS1139 steel plank, and steel frame for decking plank to provide a reliable and safe solution for your scaffolding needs.

Applications:

Bythai BM205 Scaffolding Plank

Are you looking for a reliable and durable scaffolding plank for your building construction project? Look no further than Bythai's BM205 Scaffolding Plank. Made with high-quality steel material and designed with safety and efficiency in mind, this product is the perfect solution for all your scaffolding needs.

Product Attributes

Brand Name: Bythai

Model Number: BM205

Place of Origin: China

Minimum Order Quantity: 1000

Price: \$4.5-8.5 per piece

Packaging Details: In bundles

Delivery Time: 10-15 days

Payment Terms: Container, shipping

Usage: Scaffolding

Place of Shipment: China

Surface: Pre-galvanized/hot dip galvanized/spray plastic

Material: Steel

Packaging: Container

Application and Usage

Bythai's BM205 Scaffolding Plank is specifically designed for use in building construction projects. Its sturdy and durable steel material, along with its hooks for easy installation, make it the perfect choice for scaffolding. Whether you are working on a small residential project or a large commercial building, this scaffolding plank will provide a safe and reliable platform for your workers to perform their tasks.

Product Features

This scaffolding plank is equipped with hooks on both ends, making it easy to install and remove. The hooks also ensure that the plank stays securely in place while in use, providing a stable working platform for your workers. The pre-galvanized/hot dip galvanized/spray plastic surface not only adds to the durability of the plank but also protects it from rust and corrosion.

Why Choose Bythai BM205 Scaffolding Plank?

High-quality steel material for durability
Equipped with hooks for easy installation and stability
Multiple surface options for added protection
Suitable for various building construction projects
Affordable price and minimum order quantity of 1000 pieces
Packaged in bundles for easy transportation and storage
Efficient delivery time of 10-15 days
Flexible payment terms
Manufactured in China, a hub for reliable and quality construction products

Bythai BM205 Scaffolding Plank is a high-quality and customizable product designed for use in construction and scaffolding projects.

Made of durable steel material, it is built to withstand heavy loads and provide a safe working platform for workers.

The steel plank comes with hooks, making it easy to assemble and attach to the scaffolding structure. This feature ensures stability and prevents accidents or injuries on the job site.

With its pre-galvanized, hot dip galvanized, or spray plastic surface treatment, the scaffolding plank is protected from corrosion and rust, ensuring its longevity and durability. It is also suitable for use in various weather conditions, making it a reliable choice for outdoor construction projects.

The Bythai BM205 Scaffolding Plank is available in customized lengths to meet the specific requirements of your project. It is also lightweight and easy to transport, making it ideal for use in various construction sites.

To ensure the satisfaction of our customers, we offer a minimum order quantity of 1000 pieces and a price range of \$4.5 to \$8.5 per piece. The scaffolding planks are carefully packaged in bundles for convenient handling and delivery within 10-15 days of order placement.

At Bythai, we understand the importance of timely and secure payment methods, which is why we accept container and shipping payments for our products. Our scaffolding planks are manufactured and shipped from China, ensuring quality and timely delivery to our customers worldwide.

Choose Bythai BM205 Scaffolding Plank for a reliable and customizable solution for your scaffolding needs. Contact us today to place your order and experience the best in scaffolding products and services.

Packing and Shipping:

Packaging and Shipping

1. Packaging:

Wooden pallets and steel belts are used to provide the necessary support and protection for the scaffolding planks during transportation. Each plank is carefully wrapped and stacked on the pallets to prevent any damage during shipping.

2. Shipping:

By sea: Our scaffolding planks are usually shipped by sea, which is the most cost-effective and efficient method for long distance transportation.

By air: For urgent orders, we can also arrange air delivery to ensure timely arrival of the scaffolding planks.

By land: For local or nearby customers, we can arrange land transportation to reduce delivery time and costs.

3. Customized packaging and shipping:

We understand that different customers may have specific packaging and shipping requirements. Therefore, we offer customized packaging and shipping services to meet your needs. Please contact us for more details.
