- Load Capacity: 150kg
- Warranty: 2 Years
- Highlight: **Aluminum Scaffolding Climbing Ladders, 150kg Climbing Step Extension Ladder**

Product Description:

Scaffolding Ladders - Product Overview

The Scaffolding Ladders is a multi-functional aluminum ladder that is designed to provide a safe and convenient solution for working at heights. It is lightweight, durable, and has a load capacity of 150kg, making it suitable for various industrial and construction applications. Key Features:

Step Width: 50cm, providing a wide and stable platform for users to stand on while working.

Surface Treatment: HDG (Hot-Dip Galvanized), ensuring the ladder is resistant to corrosion and rust, making it suitable for both indoor and outdoor use.

Color: Silver, giving the ladder a sleek and professional look.

Warranty: 2 Years, providing customers with peace of mind and ensuring the quality of the product.

Load Capacity: 150kg, allowing for heavy-duty use and accommodating for two people at a time.

Product Description:

The Scaffolding Ladders is a ladder without a hook, making it easy to mount onto scaffolding for elevated work. It is designed with adjustable features, allowing users to adjust the height and angle of the ladder according to their needs. This makes it suitable for various tasks, such as painting, maintenance, and construction work.

The aluminum material used in the construction of this ladder makes it lightweight, yet strong and durable. This makes it easy to transport and maneuver, without compromising on its load capacity. The ladder is also equipped with anti-slip steps, ensuring the safety of users while working at heights.

The Scaffolding Ladders is also designed with convenience in mind. It can be easily folded for storage and transport, saving space and making it suitable for on-the-go use. It also comes with a locking mechanism, ensuring the ladder remains stable and secure while in use. Overall, the Scaffolding Ladders is a versatile and reliable solution for anyone working at heights. Its lightweight, durable, and adjustable features, combined with its safety and convenience, make it a must-have tool for any industrial or construction setting.

Applications:

Scaffolding Ladders – bythai BM224

Product Description

The Scaffolding Ladders by bythai BM224 are the perfect solution for construction sites and other industrial applications. Made from high-quality aluminum or hot-dip galvanized (HDG) steel, these ladders are sturdy and durable, able to withstand heavy loads and harsh environments. With a load-bearing capacity of up to 200kg, these ladders can be used for a variety of tasks, from painting and cleaning to construction and maintenance work.

The Scaffolding Ladders come in a portable and folding design, making them easy to transport and store. This makes them ideal for indoor and outdoor use, as they can be easily moved to different locations according to your needs. Whether you are working on a building site, in a warehouse, or at a home renovation project, these ladders will provide you with safe and reliable access to high places.

Product Attributes

Brand Name: bythai

Packing and Shipping:

Scaffolding Ladders Packaging and Shipping

Our Scaffolding Ladders are carefully packaged and shipped to ensure safe delivery to our customers. Here is a breakdown of our packaging and shipping process:

Packaging

Each Scaffolding Ladder is first wrapped in protective plastic to prevent any scratches or damage during transportation. We then place the ladder in a strong and durable cardboard box, which is sealed with tape to ensure the ladder stays in place.

For larger orders, we use wooden crates to provide extra protection and stability during shipping. Each crate is secured with metal straps to ensure that the ladders do not shift during transit.

Shipping

We offer both domestic and international shipping options for our Scaffolding Ladders. For domestic orders, we use trusted shipping companies to deliver the ladders directly to our customers' doorstep.

For international orders, we work closely with our logistics partners to ensure the smooth and efficient delivery of our products. We carefully follow all necessary customs and shipping regulations to avoid any delays or issues.

Once the order has been shipped, customers will receive a tracking number to track the progress of their delivery.

Conclusion

At Scaffolding Ladders, we take great care in packaging and shipping our products to ensure they arrive in excellent condition. We are committed to providing our customers with a hassle-free and reliable delivery service. If you have any questions or concerns about our packaging and shipping process, please don't hesitate to contact us.
