

Customized Length Steel Staging Plank With Hot Dip Galvanized Surface

Our Product Introduction

for more products please visit us on bythaiscaff.com

Basic Information

- Place of Origin: China
- Brand Name: Bythai
- Model Number: BM205
- Minimum Order Quantity: 1000
- Price: 4.5-8.5
- Packaging Details: In bundles
- Delivery Time: 10-15
- Payment Terms: container, shipping

Product Specification

- Length: Customized
- Packaging: Container
- Material: Steel
- Usage: Scaffolding
- Surface: Pre-galvanized/hot Dip Galvanized/Spray Plastic
- Place Of Shipment: China
- Highlight: **Hot Galvanized Steel Staging Plank,
Customized Steel Staging Plank,
Lightweight Scaffolding Plank**

Customized Length Steel Staging Plank With Hot Dip Galvanized Surface

Product Description:

Scaffolding Plank - Your Best Choice for Safe and Efficient Construction

Product Overview

Scaffolding Plank is a high-quality, customizable steel plank designed for use in scaffolding systems. Made from galvanized steel, it is lightweight, durable, and provides a safe and stable platform for workers to perform construction tasks at elevated heights.

Place of Shipment - China

Scaffolding Plank is proudly manufactured and shipped from China, a country known for its advanced technology and high-quality steel production. Our stringent quality control processes ensure that each steel plank meets international standards and is ready for use in any construction site around the world.

Customized Length

Scaffolding Plank can be customized to fit any construction project. Our team of experts can work with you to design and produce steel planks of various lengths, ensuring that your scaffolding system is tailored to your specific needs. This flexibility makes Scaffolding Plank the perfect choice for any construction project, whether big or small.

Material - Galvanized Steel

Scaffolding Plank is made from high-quality galvanized steel, which is known for its strength, durability, and resistance to corrosion. Our steel planks are designed to withstand heavy loads and harsh weather conditions, making them a reliable choice for any construction site. Additionally, the galvanized coating provides an extra layer of protection, ensuring that the steel planks remain in good condition for a long time.

Packaging - Container

Scaffolding Plank is packaged in containers for safe and convenient transportation. Our containers are specially designed to protect the steel planks from any damage during shipment, ensuring that they arrive at your site in perfect condition. The compact packaging also makes it easy to store and transport the steel planks to different construction sites.

Usage - Scaffolding System

Scaffolding Plank is an essential component of any scaffolding system. It provides a sturdy and stable platform for workers to perform their tasks at elevated heights, ensuring their safety and efficiency. Our steel planks are compatible with various scaffolding systems and can be easily assembled and disassembled, making them a practical and versatile choice for any construction project.

Key Features

High-quality galvanized steel plank

Customizable length to fit any project

Lightweight yet strong and durable

Easy to assemble and disassemble

Compatible with various scaffolding systems

Corrosion-resistant for long-lasting use

Safe and stable platform for workers

Convenient container packaging

Choose Scaffolding Plank for a Safe and Efficient Construction Process

With its high-quality materials, customizable length, and compatibility with various scaffolding systems, Scaffolding Plank is the ideal choice for any construction project. Our commitment to providing safe and efficient scaffolding solutions has made us a trusted partner for construction companies worldwide. Contact us now to learn more about our products and how we can help you with your next project.

Features:

Product Name: Scaffolding Plank

Material: Steel

Packaging: Container

Surface: Pre-galvanized/hot Dip Galvanized/Spray Plastic

Usage: Scaffolding

Length: Customized

Key Features:

Pierced steel planking for increased strength and durability

Steel plank with hooks for easy installation and secure scaffolding structure

Option of pre-galvanized, hot dip galvanized, or spray plastic surface for corrosion resistance

Customizable length to fit specific scaffolding needs

Scaffold board designed for heavy duty usage and support

Scaffold plank perfect for construction, renovation, and maintenance projects

Technical Parameters:

Property	Value
Product Name	Scaffolding Plank

Material	Steel
Packaging	Container
Length	Customized
Surface	Pre-galvanized/hot Dip Galvanized/Spray Plastic
Place of Shipment	China
Usage	Scaffolding
Key Features	galvanized steel plank, steel plank scaffold, galvanized steel plank

Benefits

High-quality and reliable product

Cost-effective solution for scaffolding needs

Ensures safety and stability for workers

Easy to install and dismantle

Resistant to rust and corrosion

Long-lasting and durable

Flexible surface options for different environments

Can be reused in multiple construction projects

Why Choose Bythai Scaffolding Plank?

Bythai is a reputable brand that is known for its superior quality and reliable products. Our scaffolding planks are made from high-grade galvanized steel and are designed to meet the highest safety standards. With our wide range of surface options, you can choose the most suitable one for your construction project. Our planks are also competitively priced, making them a cost-effective solution for all your scaffolding needs.

Ordering and Delivery

To place an order for Bythai Scaffolding Plank, the minimum order quantity is 1000 pieces. Our planks are packed in bundles for easy transportation and delivery. We offer fast delivery within 10-15 days, and our payment terms include container and shipping. Our products are shipped from China, ensuring timely delivery to your construction site.

Conclusion

Bythai Scaffolding Plank is the perfect solution for all your scaffolding needs. With its high-quality material, advanced features, and competitive pricing, it is the top choice for construction projects. Choose Bythai for a safe, stable, and durable scaffolding system for your next construction project.
