Basic Information

- Place of Origin: china tianjin
- Brand Name: scaffolding coupler
- Certification: SGS
- Model Number: BM201
- Minimum Order Quantity: 1000
- Price: 4.5-8.5
- Packaging Details: container
- Delivery Time: 15-25
- Payment Terms: TT/TC

Product Specification

- Name: Scaffolding Coupler
- Standard: EN74-1
- Material: Steel
- Application: Construction
- Surface Treatment: Galvanized
- Color: Silver
- Feature: High Strength
- Package: Container
- Highlight: **Steel Pipe Connection Scaffolding Coupler ,
EN74-1 Pipe Connection Scaffolding Coupler ,
Galvanized Surface Scaffolding Clamps**

Product Description:

Scaffolding Coupler - High Strength Scaffold and Structure Connector

Scaffolding Coupler is an essential component for scaffolding and structure connectors. It is a manual scaffold connection tool that is designed to securely connect multiple scaffolding tubes and structures together. Our coupler is made with high-quality material and is built to withstand heavy loads and harsh construction environments.

With a minimum order quantity of 1000 units, our Scaffolding Coupler is perfect for construction projects of any size. It is a cost-effective solution for connecting scaffolding tubes and structures, making it an ideal choice for construction companies and contractors.

Features:

High Strength: Our Scaffolding Coupler is manufactured to provide maximum strength and durability. It can withstand heavy loads and is designed to last for a long time, making it a reliable choice for construction projects.

Easy to Install: Our coupler is designed for easy installation. It can be quickly and securely attached to scaffolding tubes and structures, saving time and effort during the construction process.

Durable: Made with high-quality material, our Scaffolding Coupler is built to withstand tough construction environments. It is resistant to wear and tear, ensuring long-term use without the need for frequent replacements.

Rust-Resistant: Our coupler is treated with a galvanized surface treatment, making it rust-resistant. This feature enhances its durability and ensures that it can withstand exposure to harsh weather conditions.

Application:

Scaffolding Coupler is primarily used in the construction industry. It is commonly used to connect scaffolding tubes and structures, providing a secure and stable platform for workers to perform their tasks. It can also be used in other applications that require scaffolding and structure connectors.

Name:

Our product is named Scaffolding Coupler, which clearly reflects its purpose and function. It is a coupler specifically designed for scaffolding and structure connections, ensuring safety and stability in construction projects.

Standards:

Our Scaffolding Coupler complies with the BS1139 standard, which is the industry standard for couplers used in scaffolding and structure connections. This ensures that our product meets all the necessary safety and quality requirements.

☐

Features:

Product Name: Scaffolding Coupler

Color: Silver

MOQ: 1000

Name: Scaffolding Coupler

Surface Treatment: Galvanized

Standard: EN74-1

Welcome to Scaffolding Coupler!

Are you looking for a reliable and durable scaffolding coupler for your construction project? Look no further, because our brand, Scaffolding Coupler, has got you covered!

Brand Name: Scaffolding Coupler

Our brand, Scaffolding Coupler, is a trusted and well-known name in the construction industry. We have been providing top-quality scaffolding couplers to our customers for many years, making us a go-to choice for construction projects.

Model Number: BM201

Our scaffolding coupler comes in the model number BM201, which is designed to meet the highest standards of safety and durability. With this model, you can be confident in the stability and strength of your scaffolding system.

Place of Origin: China Tianjin

All our scaffolding couplers are manufactured in China, specifically in the city of Tianjin. Our production facility is equipped with the latest technology and expertise to ensure the highest quality of our products.

Certification: SGS

Our scaffolding couplers have been certified by SGS, a renowned certification company that guarantees the quality and safety of products. This certification is a testament to our commitment to providing only the best products to our customers.

Price: 4.5-8.5

We understand that cost is an important factor in any construction project. That's why we offer our top-quality scaffolding couplers at an affordable price range of 4.5-8.5. This makes our products a cost-effective choice for your project.

Packaging Details: In Bundles

To ensure the safe and convenient delivery of our products, we package our scaffolding couplers in bundles. This also makes it easier for you to transport and store the couplers on your construction site.

Delivery Time: 15-25 Days

We understand the importance of timely delivery in a construction project. That's why we strive to deliver our products within 15-25 days, ensuring that you can continue your project without any delays.

Payment Terms: TT/TC

We offer flexible payment terms of TT/TC, making it easier for you to make payments for your scaffolding couplers. Our goal is to provide a seamless and hassle-free experience for our customers.

Standard: EN74-1

Our scaffolding couplers meet the international standard of EN74-1, ensuring that they are compatible with other scaffolding systems and can be used on construction projects worldwide.

Color: Silver

Our scaffolding couplers come in a sleek and professional silver color, adding a touch of sophistication to your construction site.

Surface Treatment: Galvanized

To enhance the durability and longevity of our scaffolding couplers, we use a galvanized surface treatment. This protects the couplers from corrosion and ensures they can withstand harsh weather conditions.

Material: Steel

Our scaffolding couplers are made of high-quality steel, known for its strength and durability. This makes our couplers a reliable and long-lasting choice for your construction project.

Application: Construction

Our scaffolding couplers are specifically designed for use in construction projects. They provide a strong and secure connection between scaffolding pipes, ensuring the safety of workers and materials.

Conclusion

Scaffolding Coupler is the perfect choice for your construction project. Our top-quality, certified, and cost-effective scaffolding couplers provide the safety, durability, and convenience you need to complete your project successfully. Trust Scaffolding Coupler for all your scaffolding needs!
