

Durable OEM Full Aluminum Quality Scaffolding Planks With Hook

Our Product Introduction

for more products please visit us on bythaiscaff.com

Basic Information

- Place of Origin: China
- Brand Name: bythai
- Certification: SGS
- Model Number: BS204
- Minimum Order Quantity: 100
- Price: 4.5-8.5
- Packaging Details: container
- Delivery Time: 10-15
- Payment Terms: TT/TC

Product Specification

- Type: Planks
- Size: Various Sizes Available
- Application: Construction, Maintenance, Repair
- Standard: EN39/BS1139
- Usage: Construction, Maintenance, Repair
- Oem: Available
- Packing: Container
- Material: Aluminium
- Anti-Slip: Yes
- Width: 0.24m
- Surface Treatment: Anodized
- Corrosion Resistance: High
- Surface: Aluminium

Product Description

Durable OEM Full Aluminum Scaffolding Planks with Hook: Climb Higher, Work Safer
Reach new heights with confidence and security using our durable, OEM full aluminum scaffolding planks with hooks!
Crafted from high-quality aluminum, these planks provide exceptional strength and stability while remaining lightweight for easy maneuverability. The integrated hooks ensure secure attachment to your scaffolding system, prioritizing safety for every project.

Features:

OEM Quality: Experience trusted, manufacturer-grade aluminum for long-lasting performance and reliability.
Lightweight Champion: Effortlessly transport and assemble these planks thanks to their featherweight aluminum construction.
Unmatched Strength: Don't compromise on safety. These planks boast a high weight capacity to handle even demanding construction materials and equipment.
Secure Scaffolding Integration: Integrated hooks allow for secure and stable attachment to compatible scaffolding systems.
Slip-Resistant Surface: Textured surface minimizes the risk of slips and falls, prioritizing worker safety.
Multiple Sizes Available: Choose from a variety of lengths to find the perfect fit for your project needs.
Enhanced Worker Safety: Secure hook integration and slip-resistant surface minimize workplace hazards.
Increased Productivity: Lightweight design allows for faster setup and breakdown times.
Improved Efficiency: Easy handling and maneuverability minimize fatigue and boost workflow.
Reduced Transportation Costs: Lightweight aluminum construction lowers transportation costs between project sites.
Long-Term Investment: Durable OEM aluminum construction offers years of reliable use.
Invest in durable OEM full aluminum scaffolding planks with hooks and elevate your construction projects to the next level!

Technical Parameters:

Attribute	Value
Size	Various Sizes Available
Standard	EN12810, AS/NZS 1576, ANSI/SSFI SC100-5/05, BS1139
Packing	Container
Application	Scaffolding System
Origin	China
Features	High Strength, Easy To Assemble, Versatile, Durable, Corrosion Resistant, Lightweight, Cost-effective, Flexible, Safe, Stable, Efficient, Environmentally Friendly, Interchangeable, Adjustable, Multi-functional
Material	Aluminum
Type	planks
OEM	Available
Usage	Construction, Maintenance, Repair

Keyword	Description
Construction safety	Designed to ensure safe and secure construction work
Lightweight plank	Made with lightweight aluminum for easy transportation and assembly
Safety design	Incorporates safety features to prevent accidents and injuries
Convenient transportation	Packed in containers for convenient transportation to different locations
High efficiency	Efficient and time-saving assembly process for increased productivity

Applications:

Aluminum planks- bythai
Product Description

The Aluminum planks, model BS204, is a high-performance scaffolding system designed and manufactured by bythai in China. It is certified by SGS and meets international standards such as EN12810, AS/NZS 1576, ANSI/SSFI SC100-5/05, and BS1139. This versatile system is suitable for various sizes and applications, making it the perfect choice for construction, maintenance, and repair projects.

Key Features

- Strong and durable aluminum material
- Easy installation with minimal tools required
- Efficient and safe for construction workers
- Versatile for various sizes and applications
- Compliant with international standards
- Plank accessories for added convenience

bythai - providing high-quality scaffolding solutions since 2005

□

Customization:

Features:

Safety Design: Our Aluminum Ringlock System is designed to ensure construction safety and prevent accidents.

High Strength: Made of high-quality aluminum material, our system is strong and can withstand heavy loads.

Easy To Assemble: With a simple and efficient design, our system can be easily assembled and disassembled, saving time and labor costs.

Versatile: Our system can be used for various types of construction projects, making it a versatile choice for contractors.

Durable: The aluminum material used in our system is corrosion-resistant and can withstand harsh weather conditions, making it long-lasting and cost-effective.

Lightweight: Compared to traditional scaffolding systems, our aluminum ringlock system is lightweight, making it easier to transport and install.

Cost-effective: Our system is competitively priced and designed to help contractors save on construction costs.

Flexible: The interchangeable components of our system allow for flexibility in design and can adapt to different construction needs.

Safe: Our Aluminum Ringlock System is designed to meet safety standards and ensure the safety of workers.

Stable: The sturdy design of our system provides stability and support for workers and materials.

Efficient: With its easy assembly and versatile design, our system can improve construction efficiency and productivity.

Environmentally Friendly: Made of recyclable aluminum material, our system is environmentally friendly and sustainable.

Interchangeable: The components of our system can be easily interchanged and used for different purposes, providing flexibility and convenience for contractors.

Adjustable: Our system can be adjusted to fit different construction heights and requirements, providing versatility in design.

Multi-functional: Our Aluminum Ringlock System can be used for various types of construction projects, making it a multi-functional choice for contractors.

Packing and Shipping:

Packaging and Shipping

The Aluminum Ringlock System is packaged and shipped securely and efficiently to ensure the safe arrival of the product to its final destination.

Packaging:

The components of the Aluminum Ringlock System are carefully packed in strong and durable wooden crates or cartons.

Each crate or carton is labeled with the product name, quantity, and any necessary handling instructions.

Special packaging can be arranged upon request.
