

Scaffolding Tubes Hot Dip Galvanized 48.3mm Welded Steel Scaffold Pipe For High-rise Building And Civil Construction Projects

Our Product Introduction

for more products please visit us on bythaiscaff.com

Basic Information

- Place of Origin: China
- Brand Name: Bythai
- Certification: SGS
- Model Number: SCA - PLANK - 001
- Minimum Order Quantity: 1000
- Price: \$8-\$14
- Packaging Details: In bundles
- Delivery Time: 15-30 Working Days
- Payment Terms: L/C, T/T
- Supply Ability: 5000t/Month

Product Specification

- Type: Scaffolding Pipe
- Application: Building Construction
- Surface treatment: Hot-dip Galvanised
- Finish: Smooth And Uniform Galvanised Coating
- Bending Radius: >2.5D
- Usage: Construction Scaffolding
- Corrosion Resistance: Excellent
- Thickness: 2.0-4.0mm
- Yield strength: ≥ 250 MPa
- Origin: China
- Elongation: >20%
- Weight: 4.37kg/m
- Transportation Method: Container
- Size: 48.3mm
- Wall thickness: 3.2 Mm

Product Description

Product Description:

The Galvanised Scaffold Tube is a high-strength, durable metal tubing designed specifically for use in scaffolding applications. This robust product is manufactured from galvanised steel, providing a sturdy and reliable solution for construction environments where safety and stability are of utmost importance. The galvanisation process ensures that the steel tube is coated with a protective layer of zinc, offering enhanced resistance to corrosion and the elements, which makes it an ideal choice for outdoor or industrial settings.

Technical Parameters:

Attribute

Details

Name

Galvanised Scaffold Tube

Yield Strength

245N/mm²

Tensile Strength

420N/mm²

Weight

6.4kg/m

Material

Galvanised Steel

Thickness

3.2mm

Application

Scaffolding

Surface Treatment

Galvanised

Diameter

48.3mm

Standard

EN39

Customization:

Brand Name: Bythai Scaffolding

Model Number: BT01

Place of Origin: China

Certification: SGS

Minimum Order Quantity: 1000

Price: \$10-\$85

Packaging Details: In bundles

Delivery Time: 7-15 days

Payment Terms: TT/LC

Supply Ability: 1000tons per month

Surface Treatment: Galvanised

Thickness: 3.2mm

Yield Strength: 245N/mm²

Standard: EN39

Application: Scaffolding

Our galvanised scaffold tubes are designed for high-performance and durability. Manufactured by Bythai Scaffolding, these tubes are ideal for a variety of scaffolding applications. The scaffold aluminum tube model BT01 is crafted with precision, adhering to the EN39 standard, and ensures a yield strength of 245N/mm². With a galvanized pipe surface treatment, our tubes offer superior resistance to corrosion, making them a reliable choice for your scaffolding needs.
