Product Description

High-Performance Scaffolding Climbing Platforms Step Extension Ladder

Product Description:

Scaffolding Ladders: The Ultimate Solution for Construction Projects

Are you tired of using heavy and unsafe construction ladders for your projects? Look no further! Introducing Scaffolding Folding Ladders, the versatile and durable solution for all your construction needs.
Our ladders are made from high-quality aluminum or hot-dipped galvanized (HDG) steel, ensuring both strength and lightweight features. With a 2-year warranty, our ladders are built to last and withstand any construction site challenges.
One of the key features of our Scaffolding Ladders is its step width of 50cm, providing a stable and comfortable platform for workers to stand on. This width also allows for easy movement and access to different areas of the construction site.
The ladder is available in a size of 3m, providing enough height for most construction projects. Its compact and foldable design makes it easy to transport and store, saving you time and effort.
But what sets our Scaffolding Ladders apart is its impressive load capacity of 150kg. This means multiple workers and heavy equipment can be safely and easily transported up and down the ladder without any concerns.
When it comes to construction, safety is always a top priority. That's why our ladders are designed with anti-slip steps and non-slip rubber feet to ensure stability and prevent accidents. Additionally, the ladder is equipped with lockable hinges to keep it securely in place.
Our Scaffolding Ladders are not just limited to construction sites. They can also be used for home renovations, painting, and other DIY projects. Its versatility and durability make it a must-have tool for any construction or DIY enthusiast.
Don't compromise on safety and efficiency when it comes to your construction projects. Choose Scaffolding Folding Ladders and experience the difference it can make in your work. Order now and take your construction game to new heights!

Applications:

Scaffolding Ladders - bythai

Brand Name: bythai

Our brand, **bythai** , is committed to providing high quality and durable scaffolding ladders for various construction needs. We understand the importance of having reliable and safe equipment on the job site, which is why our products are designed and manufactured with the highest standards in mind.
Model Number: BM224

The **BM224** is our most popular model of scaffolding ladder. Its sturdy design and versatile features make it suitable for a wide range of construction projects. It has a load capacity of 150kg, making it suitable for heavy-duty use.
Place of Origin: China Tianjin

All of our scaffolding ladders are proudly made in **China Tianjin** , a city known for its industrial and manufacturing excellence. Our factory is equipped with state-of-the-art machinery and our skilled workers ensure that every ladder meets our high quality standards.
Minimum Order Quantity: 1000

As a wholesale supplier, we have a minimum order quantity of **1000** units. This allows us to offer competitive prices and provide our customers with the best value for their money. However, we also offer customized solutions for larger orders.
Packaging Details: Container

To ensure the safe delivery of our scaffolding ladders, we package them in sturdy containers. This also makes it easier for our clients to transport and store the ladders on their job sites. We take great care in packaging our products to prevent any damage during shipping.
Delivery Time: 10-25 days

Our efficient production process allows us to have a delivery time of **10-25** days for our scaffolding ladders. We understand that time is of the essence in the construction industry, which is why we strive to deliver our products in a timely manner.
Warranty: 2 Years

We stand behind the quality and durability of our scaffolding ladders, which is why we offer a **2 years** warranty on all of our products. This gives our customers peace of mind and assures them that they are investing in a reliable and long-lasting product.
Load Capacity: 150kg

The **BM224** scaffolding ladder has a load capacity of **150kg** , making it suitable for heavy-duty use. This allows workers to safely and comfortably carry their tools and materials while working at heights.
Surface Treatment: HDG

All of our scaffolding ladders are treated with hot-dip galvanization (HDG) to protect them from corrosion and rust. This ensures that our ladders have a longer lifespan and can withstand harsh weather conditions and heavy use.
Color: Silver

The color of our scaffolding ladders is **silver** , which not only gives them a sleek and professional look, but also makes them highly visible

on the job site. This is an important safety feature, as it helps prevent accidents and injuries.
Step Width: 50cm

The step width of our scaffolding ladders is **50cm** , providing ample space for workers to comfortably stand and move around while working. This also allows for easy and safe access to different levels of the scaffolding.
Application and Scenario

Our scaffolding ladders are essential equipment for various construction projects, including building, renovation, and maintenance. They are commonly used in scenarios such as:

Exterior and interior painting

Installation of windows, siding, and roofing

Bricklaying and masonry work

Electrical and plumbing work

Industrial maintenance and repair

Our ladders are also portable, making them suitable for job sites with limited space or when working on multiple locations. They are easy to set up and can be quickly assembled and disassembled, saving time and effort.
